

World leader in vehicle  
de-pollution technology

## SEDA WS-Cutter

N-52370

### Windscreen Cutter

Vacuum  
cleaner

This special SEDA tool is a fast and easy solution to remove wind-screens from cars.

With our special milling technology a glass shattering tool is not necessary. Simply push down forcing the rotating cutter through the glass and direct around the screen.

The risk of harm from broken glass is down to almost zero. The powerful vacuum unit removes any glass dust, shards and splinters and collect it in a specific storage container.

### Your benefits:

- Pneumatic or electric
- Special milling technology
- Easy handling, fast, strong and efficient
- Suitable for laminated glass screens of cars, trucks, busses, trains, etc.
- Safe with no dust and no shards
- Includes a vacuum cleaning system
